About Me

Software Developer with professional experience building responsive websites, custom web solutions, and scalable digital platforms. Skilled in Java, SpringBoot, JavaScript, PHP, React.js, Node.js, HTML and CSS. with hands-on experience in frontend development, website optimization, accessibility implementation, and CMS-based solutions. Proven ability to collaborate with cross-functional teams, solve technical challenges, and deliver high-quality user experiences. Currently expanding expertise in Java, backend development, data structures, algorithms, and software engineering principles to build enterprise-grade applications.

Experience

OculusIT

Gurugram, India

Web Developer

December 2024 to Present

- Develop and maintain responsive, cross-browser compatible websites using HTML, CSS, JavaScript, PHP, and WordPress.
- Lead website migration projects across hosting environments while ensuring minimal downtime and preserving SEO performance.
- Implement accessibility improvements aligned with WCAG standards, enhancing usability and compliance across client websites.
- Optimize website performance through code refactoring, asset optimization, caching strategies, and technical troubleshooting.
- Configure and customize WordPress themes, templates, and plugins to support client-specific functionality and content management needs.
- Perform debugging, QA testing, and production issue resolution to maintain website reliability and user experience.
- Designed and implemented Jenzabar-to-Wordpress automation workflows, reducing manual data entry and improving data accuracy across admissions and enrollment processes.

Freelance Web Developer

Gurugram, India

Web Developer

Apr 2024 to December 2024

- Developed and deployed 8+ client websites using WordPress, PHP, HTML, CSS, and JavaScript.
- Built custom features, integrations, and responsive user interfaces tailored to business requirements.
- Managed hosting, deployments, performance optimization, SEO, and post-launch support.

ZummitLabs LLP

Ghaziabad, India

Junior Web Developer
